Special component of Gold Depanthenol :

1. Contains 99% pure gold

Clear and transparent skin care for skin that has lost its vitality from gold with skin purification and detoxification

2. Depanthenol component

It strengthens the elasticity of nutrients and activates the tired skin due to harmful environment to make the skin elastic.

3. Contains the components of natural extracts

D-PANTHENOL AMPOULE

Pure gold's power to wake up shiny skin!

The main ingredient

Niacinamide _Whitening, Pigmentation suppression and alleviation

It is a complex of vitamin B also called nicotinic acid and niacin, which helps to prevent pores and prevent water loss.

A content of more than 2% can give a whitening effect.

It also plays a role in inhibiting melanocytes from the basal layer to the stratum corneum and helps to reduce pigmentation of the stratum corneum.

Adenosine

Wrinkle, Improvement

It combines adenine and ribose to regulate various metabolism of cells and is present in small amounts in all organisms.

It promotes DNA and protein synthesis in the dermis, enhancing skin cell viability, helping to keep you young.

Recommended for these people :

- Dry skin no matter how moisturizing
- If your skin is sensitive and looking for a moisturizing cream without irritation
- For those who do not like heavy application and want light and fresh
- If you want to get away from blemishes and dullness and make your skin transparent
